The following action is in response to the amendment received March 29, 2007.

Allowable Subject Matter

Claim 15 is allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to show or render obvious a dual clutch assembly as defined in claim 15, specifically wherein an axial/radial bearing arrangement supports the secondary side of the torsional vibration damper arrangement with respect to the primary side so that the secondary side can tilt with respect to the primary side; and wherein a coupling arrangement fixes the input area of the dual clutch against rotation with respect to the secondary side of the torsional vibration damper arrangement, the coupling arrangement permitting the secondary side to tilt with respect to the input area.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Amendment

The rejection of claims 9, 10 and 15 under 35 USC 102(a) and (e), the rejection of claims 11-13 under 35 USC 102(b), and the rejection of claim 14 under 35 USC 103(a) in the previous Office action are withdrawn in view of the cancellation of claims 9-14 and the incorporation of the allowable subject matter of claim 16 into claim 15. Amended claim 15 is allowable for the reasons set forth above under "Reasons for Allowance".
